

REDESIGNING OF WEBSITE www.ncskochi.ac.in

The website of Navy Children School Website www.ncskochi.ac.in requires a new design and layout and should cater the online needs of school. The redesign should include:

1. 1 GB Domain space with latest admin interface and supporting software for efficient administration and content management.
2. All contents (Atleast 15 various heads with linked pages) are dynamic in nature(Layout only static) and can be managed with the latest software.
3. Every page in the website has unique interface with customized layout.
4. Domain storage should have high end data security and maximum email addresses and storage space.
5. One year comprehensive hosting.
6. Support and customization is up to the satisfaction of the school.

Quotations are invited for redesigning the existing one with all the details mentioned above on or before across email at admin@ncskochi.ac.in by 2nd January 2017.
